Position/ Job Title: Logistic Manager

We are seeking an experienced and detail-oriented Logistics Manager to join our team. In this role, you will be responsible for overseeing the logistics operations, ensuring the efficient and timely movement of goods and services. If you have strong leadership skills and a background in logistics or supply chain management, we'd love to hear from you!

Key Responsibilities:

- Plan and manage logistics operations, including transportation, warehousing, and inventory control.
- Develop and implement logistics strategies to improve efficiency and reduce costs.
- Oversee the coordination of inbound and outbound shipments, ensuring timely and accurate deliveries.
- Manage relationships with third-party logistics providers, vendors, and suppliers.
- Monitor and track the performance of logistics processes, identifying areas for improvement.
- Ensure compliance with industry regulations, safety standards, and company policies.
- Prepare and manage logistics budgets, ensuring cost control and financial efficiency.

Key Requirements:

- Education: Bachelor's degree in Logistics, Supply Chain Management, Business Administration, or a related field.
- Proven ability to manage and optimize transportation, inventory, and distribution processes.
- Strong leadership and team management skills.
- Proficiency in logistics software and MS Office (Excel, Word, PowerPoint).
- Excellent communication, organizational, and problem-solving skills.
